March 15, 2016

To the Honorable Mayor and
Municipal Legislature
Municipality of Florida
Florida, Puerto Rico

Dear Sirs:

In planning and performing our audit of the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Municipality of Florida as of and for the year ended June 30, 2015, in accordance with auditing standards generally accepted in the United States of America, we considered Municipality of Florida's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Municipality of Florida's internal control. Accordingly, we do not express an opinion on the effectiveness of Municipality of Florida's internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and, therefore, material weaknesses or significant deficiencies may exist that were not identified. However, as discussed below, we identified certain deficiencies in internal control that we consider to be significant deficiencies.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency or a combination of deficiencies in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. We did not identify any deficiencies in internal control that we consider to be material weaknesses.

Suite 152, PO Box 70250, San Juan, P.R. 00936-7250 • Phone (787) 756-8524, Fax (787) 274-0562

A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. We consider the following deficiencies in internal control to be significant deficiencies:

A. CASH

1. We observed the Municipality maintained inactive bank accounts during the fiscal year 2014-2015. Those are:

Account Name	Account Number
Florida LC57MMAEE	300028-430-001-006-01
Florida $60,000	300028-430-001-520-01
Fondo para el Desarrollo de Obras	254-87037
Fondos ARRA	254-88792
Tormenta Jeanne	155-20257

Recommendation

The Finance Department should close the inactive bank accounts in order to avoid this situation.

2. We observed that some bank account reconciliations as of June 30, 2015, include checks outstanding made for more than six months. Based on the Municipal Administration Regulation, Chapter IV, Section 13, the outstanding checks for more than six months after made should be cancelled and the amount included in the cash balance. Those are:

Account Name	Account Number
Joint Resolutions	075-868008
Child Care Food Program	075-015996
Section 8 Vouchers	075-831325
System 911	075-217554

Recommendation

The Municipality should evaluate the outstanding checks list on a monthly basis, and investigate the checks that have not been cleared with the bank for an unreasonable period of time (i.e. three to six months), contact the payee and determine the underlying reasons as to why these have not been presented to the bank for payment.

B. GENERAL FUND DEFICIT

The Finance Department maintains an accumulated deficit of the general fund amounting to $1,433,078 as of June 30, 2015.

Recommendation

The Municipality should work on increasing actual revenues and/or reducing expenditures, taken actions in order to stop this trend. The continuing deficit reported by the Municipality may harm the basic governmental services provided to its citizens.

This communication is intended solely for the information and use of management, Mayor and Municipal Legislature, and others within Municipality of Florida, and is not intended to be and should not be used by anyone other than these specified parties.

We believe that the implementation of these recommendations will provide the Municipality of Florida with a stronger system of internal control while also making its operations more efficient. We will be happy to discuss the details of these recommendations with you and assist in any way possible with their implementation.

Cordially,

Ortiz, Rivera, Rivera & Co.
