Honorable Mayor and Members
of the Municipal Legislature
Municipality of Vega Alta
Vega Alta, Puerto Rico

In planning and performing my audit of the financial statements Municipality of Vega Alta as of and for the year ended June 30, 2015, in accordance with auditing standards generally accepted in the United States of America, I considered Municipality of Vega Alta's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing my opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Municipality's internal control. Accordingly, I do not express an opinion on the effectiveness of the Municipality's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis.

My consideration of internal control was for the limited purpose described in the first paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses. Given these limitations, during my audit I did not identify any deficiencies in internal control that I consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

This communication is intended solely for the information and use of the Major and Members of the Municipal Legislature, management, and others within the municipality and is not intended to be and should not be used by anyone other than these specified parties.
